590 1794—Beistle 3-E or similar to this variety. Beistle fails to describe a die dot in back of the head of Liberty and two more elongated die lumps—one on the lower part of the eagle and the other in the field at the Eagle's right leg. This coin has a high edge and the denticals are very sharp. Both obverse and reverse has equal even wear and coin is in Fine condition. Unfortunately, the coin has been drilled at the top, at the E and R or Liberty and now is plugged. This rare variety should bring well over the estimated Fine price of $500.00, but because of this plug, we estimate bids around $200.00 ..... _____

UNIQUE GOLD MEDAL

1616 Dag Hammarskjold. In Gold. 37 Mm. in size. Weight of the combined $20.00 and $10.00 gold pieces. This medal is a millimeter plus, smaller in size than the foregoing listed silver one and it is our firm belief that it was cast from this medal impression. Indications are the, Weak lettering, metal flow, casting gate evidence on rim and the entire circumference was ground which accounts for the undersizing. The Consignor and Owner, Mr. Benny Kleifoot, states that this medal is unique, since he, and we quote "purchased the only 2 that were issued. He made a cut-out of one of them for his private collection and that he paid $600.00 each at the time of purchase.:" Estimates this medal at well over ..... 1,000.00 _____

Reverse, Gershwin seated with pencil in hand at the piano. Lot of 3 medals in plastic holder. This medal was issued by, now a deflunked private company. We at Federal Brand did purchase a quantity and they became very popular. However, due to the fact that we could not acquire the commoner Bronze pieces, we had to return a deluge of checks and orders. While only a few of these sets are bound to exist, we believe it should become a rarity in due time. Originally sold for $25.00 in sets of 3, now worth considerably more. _____

DEPRESSION SCRIP

Federal Brand Enterprises, Inc. is proud to compile and list the famous and extensive LAZAR COLLECTION.

Listing of a notably large and important collection of United States Depression Scrip. (money), period of 1930s, collected ardently by B. J. Lazar. Mr. Lazar was Managing Director of the Cleveland Federal Reserve Bank (Cincinnati Branch).

We are listing these notes alphabetically by State since there is no realistic "down-to-earth" listing on this interesting subject. We are using the reference work of Charles V. Kappen and Ralph A. Mitchell where it may be helpful. However, this work was never completed and is only compiled from A to I. Letters of acquisition, where available, will accompany the note. When we refer to the designation K-M it will equal Kappen and Mitchell (K - M = Kappen and Mitchell).

In the absence of an established listing, it is difficult to set a value and you may find that some values might be low and others astronomically high. These values must not be misconstrued as being Federal Brand Enterprises, Inc. buying or selling prices. All we are trying to do is mention what we are seeing others list and offer for sale. YOU, the bidder, in the final analysis, will establish the value.

We do wish to mention to the buyer that the price for the Final Prices Realized List is set at $2.00. We do not like to charge this fee but we feel if it is as interesting and appealing to others as it is to us, we would pay many times this fee for such an informative and educational listing as this price list.

REMINDER — — THIS IS PROBABLY THE LARGEST COLLECTION OF THIS TYPE EVER ASSEMBLED. MANY NOTES NEVER SEEN OR EVER WERE OFFERED PRIOR TO THIS SALE.

It is understandable why many are very rare and some could possibly be unique as this Emergency Issue was only short lived from March 6, 1933 to May 15, 1933, **a little over two months.**
